

AZTRON 

2023 VERSION

Thank you for choosing Aztron.

This product was built in accordance with strict quality standards and premium craftsmanship. We hope you thoroughly enjoy this product. Please take the time to read the content in this manual in order to optimize your satisfaction of this product. We believe that an AZTRON board offers incomparable value.

We wish you years of enjoyment and a rewarding experience with this AZTRON board.

We are Aztron.

RELEASE OF LIABILITY

By assembling or using this Aztron product, you agree that you have read and understand this entire Aztron User Manual including all instructions and warnings contained in the Manual and all printed warnings before using this Aztron product in any way. Also, you agree that you will ensure that any additional or subsequent users of this Aztron product read and understand this entire User Manual, including all instruction and warnings contained in the Manual and all printed warnings before permitting that person to use this Aztron product.

ASSUMPTION OF RISK

Wing foiling is a HAZAROUS activity, and the use of any Aztron product involves inherent risks and dangers that may result in serious injury and death of both the user and others. In using this Aztron product and any of its component, you freely agree to assume and accept any known and unknown risks of injury to you and nonuser third parties when using this equipment. The risk, danger and hazards of wing foiling can be significantly reduced by adhering to instructions and warning contained in this User Manual and by using common sense.

WARNING:

Download and read all User Manuals and Installation Guides relating to all your equipment before use, and ensure you always check all parts of your product thoroughly before each use. Failure to do so may result in personal injury or death.

RELEASE AND WAIVER OF CLAIMS:

By using this Aztron product, you hereby agree to the fullest extent permitted by laws as follows:

To waive any and all claims, that you have or may have in the future against Aztron Sports (Shanghai) Co. Ltd. and all related parties resulting from the use of this Aztron product and any of its components.

To release Aztron Sports (Shanghai) Co. Ltd. and all related parties from any and all liability for any loss, damage, injury or expense that any user/s of this product may suffer, or that any user/s next of kin may suffers, as a result of the use this product, due to any cause whatsoever, including but no limited to negligence or breach of contract in this Aztron product and any of its components. In the event of injury, death or incapacity, all provisions contained herein shall be effective and binding upon your heirs, next of kin, executors, administrators, assignees, and representatives. Aztron Sports (Shanghai) Co. Ltd. and all related parties have not made and expressly deny any oral or written representations together than what is set forth within this Aztron User Manual.

SAFETY WARNINGS

For your safety and the safety of others, Aztron strongly urges you to undergo lessons with a recognized certified instructor prior to using this product. This User Manual is NOT a substitution to lessons.

Wind foiling and foil boarding involve unavoidable risks so it is important that you familiarize yourself with these risks and take appropriate measure to minimize risks as much as possible. Please familiarize yourself with safety precautions and system related to your equipment.

Wind-winging and foiling are high-intensity action sports, Do not participate in these sports if you are physically unfit or suffer from any medical conditions that may put you at further risk.

LIMITED DANGERS TO YOURSELF:

- Be aware of the usual risks associated with water sports such as drowning, rapidly changing conditions, hypothermia, sunburn fatigue, rocks, waves etc.
- Only use this product if you are a strong swimmer.
- Familiarize yourself with local marine sue guidelines and obey all established rules
- Check weather reports, local prevailing conditions, tides, and currents prior to launching.
- Be aware of the surroundings prior to launching.
- Check your equipment thoroughly prior to each use. Do not launch your board if it is damaged in anyway.
- Always surf, SUP, wind foil boarding with a partner and/or a supervisor observing you from the land. Always explain your expected course to your supervisor or partner.
- Do NOT surf, SUP, foil or wind foil in extreme weather and/or rapidly changing conditions.
- Do NOT wind foil in offshore winds or strong onshore winds.
- Choose the appropriate foil board for your weight and height, ability and the conditions.
- Do not use a foil board that is beyond your control for the given conditions.
- If conditions change while you are on the water and you can no longer control your equipment, return to shore. Do not go out in conditions that are beyond your skill level.
- If you are under age of 18, you must have your parent or legal guardian read these warning and instructions.
- When wind foiling, always use a safety leash so your board is contained.
- We strongly recommend you wear a helmet to avoid injury from your board or other hard objects.
- We strongly recommend you wear a Personal Flotation Device (PFD) or impact vest.
- Choose a full-length wetsuit or shorty depending on the water temperature. Be aware that you will use more energy when you are cold.
- Do NOT use this product if you are under the influence of drugs, alcohol or prescription medication.
- Note that this is a non-exhaustive list. Use common sense if other risks arise.

LIMITED DANGERS TO OTHERS:

- Be courteous to other riders and comply with established give way rules.
- Stay clear other water users. Leave sufficient space between you and swimmers, boats and any other water users.
- Stay clear of other beach users.
- Familiarize yourself with local marine use guidelines and obey all established rules.
- Respect wildlife and behave accordingly.
- Note that this is a non-exhaustive list. Use common sense if other risks arise.

LIMITED WARRANTY

Aztron Sports warranties our products to be free from major defects in material or workmanship to the original purchase ONLY, for a period of 365 days* from the date of purchase.

**Warranty period may vary by country of purchase.*

LIMITED DANGERS TO YOURSELF:

1. The warranty is valid only when the warranty registration or warranty card is completed and returned within 30 days of date of purchase.
2. Warranty registration or warranty card must be accompanied by the original purchase receipt in which the name of retailer and date of purchase must be clear and legible.
3. Warranty is only valid when the product is used for its normal intended recreational use and will not cover products used in teaching, rental operations or other commercial purpose.
4. Aztron will make the final warranty determination, which may require inspection and/or photos of the equipment which clearly show defects. If necessary, this information must be sent to your point of purchase, or your country's Aztron distributor, postage prepaid.
5. If Aztron deems the products defective, the warranty only covers the repair or replacement of the defective product. Aztron will not be responsible for any costs, losses or damages incurred as a result of the loss of use of this product.
6. The warranty does not cover damage caused by misuse, abuse, neglect or normal wear or tear including, but not limited to: punctures, riggings with other than Aztron components, damage due to excessive sun exposure or hot temperatures such as inside an unventilated car, damage due to the product being stored in temperatures exceeding 45 degrees Celsius, damage caused by improper handling and storage, damage caused by use in waves or shore breaks, damage caused by using any inappropriate tools or any tool other than those specified within the installation guides and user manuals, damage caused by neglect of the care and maintenance instructions provided within the installation Guides and User Manuals.
7. This warranty is void if any repair, change or modifications has been made without authorization to any part of the equipment.
8. The warranty for any repaired or replaced equipment is good from the date of the original purchase date only.
9. All warranty claims must be accompanied by a digital copy of the original purchase receipt in which the name of the official retailer and date of purchase must be clear and legible.
10. There are no warranties that extend beyond the warranty specified herein.

FOR ANY WARRANTY CLAIMS PLEASE CONTACT YOUR AZTRON RETAILER. A CLAIM FORM CAN BE DOWNLOAD FROM THE AZTRON WEBSITE.

1. FOIL SAFETY

Wind foiling and Foil boarding come with a unique set of risks and dangers above those inherent to the sport of wing foiling or foil boarding. In order to keep yourselves and others safe in the water, we recommend use extra caution and implement these basic safety precautions :

- Aztron strongly recommends wing foil or related lessons for first-time foil users. Wing foiling and foil boarding are dangerous activity and should be treated with caution.
- Check your board condition with all the accessories and components before each use to ensure all connections are tight and in proper working order.
- Do not foil in shallow water, and use extreme caution when foiling near other people and objects.
- We recommend wearing a helmet with ear protection at all times and a wetsuit (especially when learning), to help protect yourself from impacts with your board and foil.
- Use care when transporting your board, to ensure the safety of yourself and others, and to protect the longevity of your equipment.
- Use extreme caution when placing your foil and foil board on the beach, as there can be a danger to other riders, general beach users and your own equipment.
- We recommend using a Aztron board, wing, and foil system gear bag for your Foil-set, to provide maximum protection and longevity of the products.

2. FOIL ASSEMBLY

SCREW SET FOR FALCON FOIL BOARD

4 x M6x28 TH
4 x T-Nuts

NOTE: Boards are sold separately. The Aztron foil Boards can be purchased additionally at a Aztron Retailer.

WARNING:

Do not use power tools for installation as it may cause damage as control of torque and power is limited. Doing so will render your warranty void.

WARNING:

Over tightening screws can cause irreversible damage to the inserts, track and T-Nuts. Doing so will render your warranty void.

DIAGRAM 1

2.1 ATTACHING YOUR ROCKET FOIL TO AZTRON FOIL BOARDS

T-Nuts pre-inserted into the board tracks

1. Ensure all surfaces are free from dirt or sand prior to assembly. Pay close attention to the Board Adaptor on the foil system and board tracks.
2. Insert one T-Nut into each track using the central track entry points, ensuring the correct T-Nut orientation is maintained as per the diagram (Diagram 1). Slide the T-Nuts towards the tail of the board until they are at the far back end of the tracks.

2.2 DISASSEMBLAGE

Untighten the four screws of the top plate and pull out the four T-nuts through the center opening of the tracks. Keep the T-nuts and screws tightened together to keep them safe.

2.3 ADJUSTMENT

The ideal location of the foil depends on its dimensions and design; it can therefore vary for each different foil. Place the foil in a central position as a first reference. The foil will rise up sooner and more strongly when it is located in a more forward position (more front foot pressure). It will rise up less when located in a more backward position (less front foot pressure).

3. FIT THE FOOT STRAPS

To install the optional Footstraps, follow the steps below. Notice the foot straps are not included in the board package.

1. Use the screws provided in the Footstrap pack with a Philips screws driver. Choose your preferred position amongst the selection of positions. If you are not sure, use the central positions.
2. Fasten the screws, through the foot strap, into the plastic insert of the board. Do not forget the washers and watch the angle of the screw to avoid damaging the board.

4. CARE AND MAINTENANCE

It is recommended to use AZTRON foils together with AZTRON accessories. Regularly check your board for holes coming from any damage. In case you find any damage, make sure these are sealed and fixed properly before further use.

STORAGE

Keep your board in a well-ventilated and shaded area when you do not use it. Your board can be damaged if it is exposed to direct sunlight for a period of time. Keep your board in an area with good air flow and circulation.

- Do not leave your board exposed to the sun on the beach for too long. Limited exposure of the deck-side of the board to direct sunlight.
- While in use, water flowing over the deck helps regulate surface temperature. However, when the deck traction pad is dry, the heat absorption effect is amplified when exposed to direct sunlight.
- At approximately 74°C/165°F, all EPS foam begins outgassing, becomes unstable and delaminate.
- Leaving your board in a vehicle during the day, even on a mild day, increases the risk of delamination.

5. TRANSPORTATION

By Hand:

- Carry the board by using the carrying handle.
- If necessary, use a transport cart to help with the transport.

By Vehicle:

- When strapping to the top of your car, place the board underside up. Placing the top side up may generate wind drag and instability when driving.
- Place the front or the back of the board forward are both acceptable.
- Overtightening straps may result in pressure dings.
- Use padded strap instead of non-padded nylon straps.

6. SERIAL NUMBER

Find the Serial Number on the board back. It is 12 characters long
